Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution are expected across the UK on Sunday. Light winds remain for the vast majority and rain arrives from the west which will help subdue any buildup of particulates.

Tomorrow: Low levels of air pollution expected into Monday across the UK.

Outlook: High pressure becoming established from Tuesday to Thursday, perhaps with some patches of Moderate air pollution forming in the west on Wednesday and east on Thursday. Confidence is low.
